The EXPO exhibits 43 field studies projects USP students completed as part of their Senior Research Practicum. Each student project includes a senior thesis, poster and short video. The students' research covers a broad range of subjects including Architecture and Urban Design; Community and Economic Development; Environment; Housing; Public Health, Safety and Welfare; Transportation Planning; Urban and Regional Planning; and US-Mexico Border Planning.

Please join us for this wonderful opportunity to view creative civically-engaged student research focused on San Diego and its environs.
